AJAY B

Full Stack Developer | MERN Stack Development

Coimbatore, India * bajayy1812@gmail.com * linkedin.com/in/ajay-b-0b0789328 * github.com/bajayy1812-code

PROFESSIONAL SUMMARY

Full Stack Developer specializing in MERN stack development and modern web application engineering. Hands-on experience building responsive React interfaces, scalable Node.js and Express.js RESTful APIs, and modeled MongoDB databases with JWT authentication and role-based ac cess control. Passionate about problem-solving, test automation, and writing clean, maintainable code.

EDUCATION

Sri Shakthi Institute of Engineering and Technology **2023 - 2027 (Expected)**

Bachelor of Engineering (B.E.) in Electronics and Communication Engineering **CGPA: 7.94 / 10.0**

Location: Coimbatore, Tamil Nadu, India

INTERNSHIP EXPERIENCE

MERN Stack Developer Intern **2025**

Frenzo Academy * Coimbatore, India

* Developed a full-stack MERN application with seamless client-server state synchronization.
* Created modular, reusable React.js interface components following DRY principles.
* Engineered responsive, accessible frontends tested across multiple screen resolutions.
* Built RESTful API endpoints using Node.js and Express.js with custom error handlers.
* Integrated MongoDB database layers using Mongoose ODM with strict schema definitions.
* Practiced continuous version control and collaborative workflows utilizing Git and GitHub.

FEATURED TECHNICAL PROJECTS

Gym Membership Management System (Iron Pulse) *React.js, Node.js, Express.js, MongoDB Atlas, JWT, bcrypt*

* Architected an end-to-end full-stack gym management platform with administrative and member access tiers.
* Implemented stateless JWT authentication, password hashing with bcrypt, and role-based access control (RBAC).
* Engineered membership subscription tracking, daily check-in verification, automated BMI assessments, and diet modules.
* Formulated MongoDB database schemas with Mongoose ODM and crafted modular RESTful API endpoints.

Expense Tracker - Personal Finance & Ledger Application *JavaScript ES6+, Node.js, Express.js, MongoDB, RESTful APIs*

* Developed a responsive full-stack income and expenditure tracking portal with persistent MongoDB database storage.
* Engineered dynamic net balance calculations, multi-category transaction classification, and date-range ledger filtering.
* Built full CRUD operations backed by strict client and server-side form validations for financial numerical integrity.

TECHNICAL SKILLS

Frontend Development: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Design

Backend Development: Node.js, Express.js, RESTful API Design, Middleware, CRUD Operations

Database Systems: MongoDB, MongoDB Atlas, Mongoose ODM, Data Modeling

Security & Auth: JWT Authentication, bcrypt Password Hashing, RBAC, Protected Routes

Tools & Workflow: Git, GitHub, Debugging, Data Structures & Algorithms, Clean Code

CERTIFICATIONS & ACHIEVEMENTS

* **JavaScript (Basic & Intermediate)** - HackerRank Certified Competency
* **Introduction to MERN Stack** - Simplilearn SkillUp Verified Course
* **Problem Solving Milestone** - 100+ DSA Problems Solved on Competitive Platforms
