AJAY B

Aspiring UI/UX Designer | Full Stack Developer

Coimbatore, India * bajayy1812@gmail.com * linkedin.com/in/ajay-b-0b0789328 * github.com/ajayb1812

PROFESSIONAL SUMMARY

Aspiring UI/UX Designer and Full Stack Developer passionate about creating meaningful digital experiences and building modern web applications . Combines creative design thinking with robust technical development to transform complex ideas into intuitive, functional, and visually engaging products. Solid foundation in MERN stack architecture, modern frontend frameworks, and user-centered design.

EDUCATION

Sri Shakthi Institute of Engineering and Technology 2023 - 2027

Bachelor of Engineering (B.E.) in Electronics and Communication Engineering **CGPA: 7.94 / 10.0**

Location: Coimbatore, Tamil Nadu, India

INTERNSHIP EXPERIENCE

MERN Stack Developer Intern 2025

Frenzo Academy * Coimbatore, India

* Engineered full-stack MERN application architecture encompassing frontend state management and backend services.
* Built responsive, reusable React.js interface components delivering seamless experiences across mobile and desktop devices.
* Designed RESTful APIs using Node.js and Express.js with robust routing, error handling, and middleware integration.
* Implemented secure authentication, CRUD operations, and schema modeling with MongoDB and Mongoose ODM.
* Practiced continuous version control and collaborative workflows utilizing Git and GitHub.

FEATURED TECHNICAL PROJECTS

Iron Pulse - Gym Membership Management System *React.js, Node.js, Express.js, MongoDB Atlas, JWT, bcrypt*

* Built full-stack fitness management platform featuring role-based access control (Admin / Member) and protected routing.
* Implemented member registration, recurring subscription tracking, and payment record auditing with secure REST APIs.
* Engineered an interactive administrative dashboard equipped with real-time membership analytics and statistics.

Expense Tracker - Personal Finance Dashboard *JavaScript, Node.js, Express.js, MongoDB, Mongoose, REST APIs*

* Developed dynamic finance tracking application supporting automated expense categorization and net income calculation.
* Engineered full CRUD operations with client-side form validation and persistent MongoDB data modeling.
* Created a responsive analytics overview providing visual spending summaries and category breakdowns.

TECHNICAL SKILLS & DESIGN COMPETENCIES

Frontend Development: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Web Design

Backend & APIs: Node.js, Express.js, RESTful APIs, API Integration, Middleware Architecture

Database & Security: MongoDB, MongoDB Atlas, Mongoose ODM, JWT Authentication, RBAC, bcrypt Hashing

Tools & Workflow: Git, GitHub, VS Code, Browser DevTools, Debugging, Postman

Design & UX (Learning): UI Design, UX Fundamentals, Wireframing, Prototyping, Figma, Typography, Color Theory

CERTIFICATIONS & ACHIEVEMENTS

* **JavaScript Certification - HackerRank**
* **Introduction to MERN Stack - Simplilearn SkillUp**
* **100+ Data Structures & Algorithms Problems Solved**
  Strong foundation in algorithmic problem-solving and optimization
